ABOUT ME

Final-year Diploma student in Computer Engineering at Government Polytechnic, Pune, with interests in software development, data science, cybersecurity, and emerging technologies. Interested in full-stack development, database systems, and AI/ML through hands-on projects. Motivated to build secure, user-focused solutions, learn new technologies, and apply technical knowledge to real-world problems.

EDUCATION

Government Polytechnic Pune — Diploma in Computer Engineering (Second year completed; Semester 4 score: **87.5%**) **2024 – Present**

Silver Crest School — Secondary School Certificate (SSC) (**88.80%**) **2011 – 2024**

TECHNICAL SKILLS

Programming: C++, Python, Java, JavaScript, SQL

Backend & APIs: Flask, FastAPI, REST APIs

Databases & Processing: PostgreSQL, MySQL, SQLite, Pandas, openpyxl, JSON, CSV

Cloud & Distributed Systems: GCP, Google Cloud Storage, Cloud Computing, Distributed File Storage

Security & Data Integrity: SHA-256, File-Integrity Verification, Access Control, Audit Ledgers

Automation & Testing: Selenium, BeautifulSoup, Requests, HTML Parsing, Testing Fundamentals

Frontend: HTML, CSS, React.js, Vite, Tailwind CSS

Application Development: Android, Android Studio, XML, Tkinter, Streamlit

AI & Data Science: AI/ML fundamentals, Data Mining, WEKA, Google Colab

NLP & Document Processing: PaddleOCR, OpenCV, PyMuPDF, PDF Extraction, Legal-Text Simplification

Networking & Systems: Computer Networks, Cisco Packet Tracer, Wireshark, Ubuntu, WSL, Banker's Algorithm

Tools: Git, GitHub, Visual Studio Code, Gradle, Tinkercad, Arduino

PROJECTS

NyayMitra – AI-Powered Legal Assistance, Case Intelligence & Document Automation Platform — React, TypeScript, Vite, Tailwind CSS, FastAPI, Python, NLP, OCR, Selenium, SQL

- Developed the frontend using React, Vite, and Tailwind CSS and integrated user-facing features with FastAPI backend services.
- Contributed to Juris AI, multilingual legal assistance, NLP-based court-order simplification, and OCR-based document processing.
- Worked on court-case information workflows including CNR-based lookup, case details, parties, timelines, and available court orders.
- Contributed to document extraction and data organization workflows for available court-order PDFs and structured case data.

Decentra Cloud – Decentralized Cloud File-Sharing System — Python, Flask, Google Cloud Platform (GCP), Google Cloud Storage, SQLite, SHA-256

- Built a decentralized file-sharing system with replication across three cloud storage buckets, file-integrity verification, and controlled sharing.
- Implemented password-hashed authentication, owner/shared-user access control, and a tamper-evident hash-chain ledger for file events.

FocusForge – Productivity & Focus Timer — Java, Android Studio, XML, Gradle

- Developed an Android productivity application with timer-based focus sessions and a simple user interface.

Deadlock Detection and Management System — Python, Streamlit, Banker's Algorithm

- Built an interactive tool to analyze resource allocation, detect deadlocks, and evaluate safe states.

Smart Stock Price Checker — Python, yfinance, Pandas, Matplotlib, Streamlit

- Created an application to retrieve stock prices and visualize historical market trends.

Social Guard – Social Media Privacy Optimizer — Python, Streamlit, Machine Learning, Genetic Algorithms

- Developed an interactive privacy-analysis application to assess social-media privacy risks and support privacy-aware decisions.

OTHER PROJECTS

Code & Escape, Coding Challenge Platform: Technologies: Java, MySQL, AI integration

Luma AI / Open Sky, Assistive Smart Glasses Concept: Technologies: AI concept, OCR, Computer Vision

Airline Management System: Technologies: RDBMS, SQL

Smart Noise Level Monitoring System: Technologies: IoT, ESP32/microcontroller, sensors

Hospital Management System: Technologies: C++, Object-Oriented Programming

E-commerce Website & Luxe Bistro Restaurant Website: Technologies: HTML, CSS, JavaScript

CERTIFICATIONS

Software Engineering Infosys Springboard	**Python Fundamentals** Infosys Springboard	**Internet of Things 101** Infosys Springboard
C++ OOP Series (6 Courses) Infosys Springboard	**AI Fundamentals** Infosys Springboard	**Career Management Essentials** IBM SkillsBuild
Introduction to Data Science Cisco Networking Academy	**Presentation Skills** TCS iON	**Communication Skills** TCS iON
Introduction to Software Testing Infosys Springboard	**Financial Literacy Course for Bharat** NISM	

ACHIEVEMENTS & ACTIVITIES

- **Team Lead – VES Technothon:** Led team coordination & presentation of Luma AI / Open Sky assistive eyewear concept; qualified for Round 1.
- **MindSpark '25 (COEP Technological University):** Participant in GoOGLer, Code Junkie, and Sherlocked.
- **Participant:** Back2Hack '26, UNLEASH '26, ASCOD, DevSprint 2025 (Buzzer Quiz & Treasure Hunt).

SOFT SKILLS & LANGUAGES

Soft Skills: Team Leadership, Collaboration, Critical Thinking, Time Management, Willingness to Learn, Communication, Problem-Solving, Adaptability, Presentation Skills

Languages: English, Hindi, Marathi
